| | ssasliderintro_text slider intro
| | On the following pages, we are going to make use of a sliding scale. In order to get comfortable with how it
| | works, we would like to first illustrate this using a temperature scale. The question on the next page asks you

```

|| to choose what you believe the temperature will be tomorrow (in Fahrenheit), and then the table at the bottom
|| illustrates how that converts to temperature in Celsius. Please feel free to experiment with this scale so that
|| you're comfortable with it. To move the scale, simply click on the temperature gauge and move it to the
|| desired point.
