A3 how many close friends or family members you think interested in participating

The American Life Panel has been very successful, and we may be able to enroll more study participants at some point. Right now, we are just looking for your opinion on whether your friends or family members who don't live with you might be interested in participating. If one of your close friends or family members is interested in participating but does not have access to the Internet or does not have a computer, we would provide them with both. How many of your close friends or family members do you think would be interested in participating?
