Well Being 239

IF (Indicates whether the respondent is part of the refresher sample of November 2011. = (YES) Part of refresher sample of November 2011. AND Indicates how many financial crisis surveys a respondent has completed. < 3) THEN

| intro_refresh intro refresher sample

Beginning in November 2008 we have been surveying people about their health and economic well-being and how they have been faring in these economically difficult times. This questionnaire is part of our study. We will ask you questions related to your health, your household's financial well-being and your outlook for the future. By tracking the health, economic well-being and outlook of households like yours we can learn how problems in the economy are affecting all of us. Whether the changes in your household are large or small, the information you provide is invaluable. [Thank you for participating in the [New question] survey!] We greatly value your input on these topics and hope that you will find this questionnaire interesting. Thank you for your thoughtfulness and effort when answering our surveys and for your continued participation.

intro_refresh2 intro refresher sample part 2

You will receive \$[reward survey] for completing the survey. We understand that some of the questions
are of a personal nature. Please remember that your answers are extremely important to us. Your
participation is voluntary and you may skip over any questions that you would prefer not to answer.
Your responses are confidential, and it helps us a great deal if you respond as completely, honestly
and accurately as possible. Thank you for your participation!

ELSE

| intro_returningshort intro survey if answered short survey

It is February and time for our next monthly survey. By tracking the health, economic well-being andoutlook of households like yours we can learn how problems in the economy are affecting all of us.Whether the changes in your household are large or small, the information you provide is invaluable.As always, thank you for your thoughtfulness and effort when answering our surveys and for yourcontinued participation!

| intro_returningshort2 intro 2 survey if answered short survey previously

Some of the monthly surveys are short (like the one in December) and some are long (like the survey in January). The survey for this month is one of the shorter ones. Some questions ask what has happened since a certain date which was when we last asked you these questions. You will receive \$[reward | survey] for completing the survey. We understand that some of the questions are of a personal nature. Please remember that your answers are extremely important to us. Your participation is voluntary and you may skip over any questions that you would prefer not to answer. Your responses are confidential, and it helps us a great deal if you respond as completely, honestly and accurately as possible. Thank you for your participation!

IF Random balls and bins = Balls and bins AND Preload indicating whether respondent explicitly chose to have probability questions in percent format = Respondent did not explicitly chose yet to have probability questions in percent format THEN

| E010 intro bins and balls gas prices

We are interested in how well you think the economy will do in the future. In the next question we will ask you about gasoline prices and how much higher or lower you expect them to be one year from now. Of course this is not easy to forecast. People will have different opinions about this and some may be uncertain. For example, someone may think that gasoline prices will go up somewhere between 0% and 10%, but may also think there is some chance that gasoline prices will fall. We have designed a method for you to express this kind of uncertainty. We will show you an example on the next screen.

E012a First bins and balls example

Example: Expectations about changes in gasoline prices one year from now This picture
illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins
represents a range of price changes. The number of balls in a bin shows the likelihood of the actual
price change. No ball in a bin means no chance, and a large number of balls means a large chance.
This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline
prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks there
is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other bins
showing there is no chance prices could go up by more than 10% or down by more than 10%. Of course

the chances that you have in mind may be completely different. Now it's your turn! **E013** Gasoline price bins and balls Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in gasoline prices. The more likely you think that the change will be in a range represented by one of the bins, the more balls you should put in that bin. To move balls into a bin, click on the + and - buttons under each bin. You can also "drag and drop" the balls with your mouse. String | IF Gasoline price bins and balls = empty THEN || E013 bin none E013 no balls || You did not allocate any balls on the previous screen. If this is due to the dragging and dropping || of the balls not working properly then please go back and try to use the plus or minus buttons below || each bin (if you have not done so already). Alternatively, you can answer the question in a || different format. || 1 Answer the question in a different format || IF (E013 no balls = Answer the question in a different format) THEN ||| **G040** Gasoline price higher in one year ||| What about your expectations about gasoline prices? || **E010** intro bins and balls gas prices

We are interested in how well you think the economy will do in the future. In the next question we will ask you about gasoline prices and how much higher or lower you expect them to be one year from now. Of course this is not easy to forecast. People will have different opinions about this and some may be uncertain. For example, someone may think that gasoline prices will go up somewhere between 0% and 10%, but may also think there is some chance that gasoline prices will fall. We have designed a method for you to express this kind of uncertainty. We will show you an example on the next screen.
 E012a First bins and balls example Example: Expectations about changes in gasoline prices one year from now This picture illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins represents a range of price changes. The number of balls in a bin shows the likelihood of the actual price change. No ball in a bin means no chance, and a large number of balls means a large chance. This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks there is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other bins showing there is no chance prices could go up by more than 10% or down by more than 10%. Of course the chances that you have in mind may be completely different. Now it's your turn!
 E013 Gasoline price bins and balls Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in gasoline prices. The more likely you think that the change will be in a range represented by one of the bins, the more balls you should put in that bin. To move balls into a bin, click on the + and - buttons under each bin. You can also "drag and drop" the balls with your mouse. String
IF (Gasoline price bins and balls != empty AND !checkBins(Gasoline price bins and balls, 20)) THEN I binerror bin error You did not put all the balls in the bins. Your answers are important to us. Please try to answer I as best you can. If you would like to add the remaining balls to the bins, please press the "Back"
ENDIF
ENDIF
IF Gasoline price bins and balls = empty THEN
IF (Preload indicating whether respondent explicitly chose to have probability questions in percent format = Respondent did not explicitly chose yet to have probability questions in percent format) THEN
 E013_bin_none E013 no balls You did not allocate any balls on the previous screen. If this is due to the dragging and dropping of the balls not working properly then please go back and try to use the plus or minus buttons below each bin (if you have not done so already). Alternatively, you can answer the question in a different format. 1 Answer the question in a different format
ENDIF
IF (E013 no balls = Answer the question in a different format OR Preload indicating whether respondent explicitly chose to have probability questions in percent format = Respondent chose to have probability questions in percent format) THEN

summary_intro_integrated intro to summary table

Your household's spending total last month: \$[total of spending] According to your entries your household's spending in [holder for previous month name] on the described categories
was[(excluding vehicle purchases)]: \$[total of spending]. Below is a summary of your entries. If
you would like to make any changes to your entries, you can change the amounts in the table below and
then click the 'Update total' button in the lower right corner of the screen to recalculate your total.
Once you are satisfied with your entries, please just click 'Next'. [As a reminder, there are some
categories of spending that we DID NOT ask you about in this survey, but we will ask these in a later
survey. (Click here for a list of spending categories that we will ask about in a later survey.)/As a
reminder, there are some categories of spending that we HAVE NOT YET asked you about, but that we will ask you in the next set of questions in THIS SURVEY. (Click here for a list of spending categories that
we will ask about in the next set of questions.)] [A zero with an asterisk (0*) means that you did not
give an answer for that spending category. In the calculation of total spending we entered a zero
amount for this item. If this is incorrect, then please update the zero with your best guess.]
