

Well Being 253

IF (Indicates whether the respondent is part of the refresher sample of November 2011. = (YES) Part of refresher sample of November 2011. AND Indicates how many financial crisis surveys a respondent has completed. < 3) THEN

| **intro_refresh_long** intro refresher sample long survey
| Beginning in November 2008 we have been surveying people about their health and economic well-being and how they have been faring in these economically difficult times. This questionnaire is part of our study. We will ask you questions related to your health, your household's financial well-being and your outlook for the future. By tracking the health, economic well-being and outlook of households like yours we can learn how problems in the economy are affecting all of us. Whether the changes in your household are large or small, the information you provide is invaluable. [Thank you for participating in the [New question] survey!] We greatly value your input on these topics and hope that you will find this questionnaire interesting. Watch out for our newsletter - this time with results from these monthly surveys! We mailed it together with your quarterly payment. Some of these monthly surveys are short and some are long. The survey for this month is one of the long ones. You will receive \$[reward survey] for completing the survey. We understand that some of these questions are of a personal nature. Please remember that your answers are extremely important to us. Your participation is voluntary and you may skip over any questions that you would prefer not to answer. Your responses are confidential, and it helps us a great deal if you respond as completely, honestly and accurately as possible. Thank you for your participation!

ELSE

| **intro_returning** intro survey long financial crisis questionnaire
| It's April...time for our next survey! Watch out for our newsletter - this time with results from our monthly surveys! We mailed it together with your quarterly payment. Some of these monthly surveys are short (like February and March) and some are long (like the survey in January). The survey for this month is one of the long ones. We will ask you questions related to your health, your household's financial well-being and your outlook for the future. Several questions may appear familiar to you from prior surveys as we are trying to monitor how households fare over time. We greatly value your input on these topics and hope that you will find this questionnaire interesting. You will receive \$[reward survey] for completing the survey. We understand that some of these questions are of a personal nature. Please remember that your answers are extremely important to us. Your participation is voluntary and you may skip over any questions that you would prefer not to answer. Your responses are confidential, and it helps us a great deal if you respond as completely, honestly and accurately as possible. Thank you for your participation!

IF Random balls and bins = Balls and bins AND Preload indicating whether respondent explicitly chose to have probability questions in percent format = Respondent did not explicitly chose yet to have probability questions in percent format THEN

| **E010** intro bins and balls gas prices
| We are interested in how well you think the economy will do in the future. In the next question we will ask you about gasoline prices and how much higher or lower you expect them to be one year from now. Of course this is not easy to forecast. People will have different opinions about this and some may be uncertain. For example, someone may think that gasoline prices will go up somewhere between 0% and 10%, but may also think there is some chance that gasoline prices will fall. We have designed a method for you to express this kind of uncertainty. We will show you an example on the next screen.

| **E012a** First bins and balls example
| Example: Expectations about changes in gasoline prices one year from now This picture illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins represents a range of price changes. The number of balls in a bin shows the likelihood of the actual price change. No ball in a bin means no chance, and a large number of balls means a large chance. This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks there is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other bins showing there is no chance prices could go up by more than 10% or down by more than 10%. Of course the chances that you have in mind may be completely different. Now it's your turn!

| **E013** Gasoline price bins and balls
| Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in gasoline

```

| prices. The more likely you think that the change will be in a range represented by one of the bins,
| the more balls you should put in that bin. To move balls into a bin, click on the + and - buttons
| under each bin. You can also "drag and drop" the balls with your mouse.
| String

| |
| | E010 intro bins and balls gas prices
| | We are interested in how well you think the economy will do in the future. In the next question we
| | will ask you about gasoline prices and how much higher or lower you expect them to be one year from
| | now. Of course this is not easy to forecast. People will have different opinions about this and
```

|| some may be uncertain. For example, someone may think that gasoline prices will go up somewhere
|| between 0% and 10%, but may also think there is some chance that gasoline prices will fall. We
|| have designed a method for you to express this kind of uncertainty. We will show you an example on
|| the next screen.

|| **E012a** First bins and balls example

|| Example: Expectations about changes in gasoline prices one year from now This picture
|| illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins
|| represents a range of price changes. The number of balls in a bin shows the likelihood of the actual
|| price change. No ball in a bin means no chance, and a large number of balls means a large chance.
|| This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline
|| prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks
|| there is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other
|| bins showing there is no chance prices could go up by more than 10% or down by more than 10%. Of
|| course the chances that you have in mind may be completely different. Now it's your turn!

|| **E013** Gasoline price bins and balls

|| Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in gasoline
|| prices. The more likely you think that the change will be in a range represented by one of the
|| bins, the more balls you should put in that bin. To move balls into a bin, click on the + and -
|| buttons under each bin. You can also "drag and drop" the balls with your mouse.

|| String

|| IF (Gasoline price bins and balls != empty AND !checkBins(Gasoline price bins and balls , 20))
|| THEN

|| **binerror** bin error

|| You did not put all the balls in the bins. Your answers are important to us. Please try to answer
|| as best you can. If you would like to add the remaining balls to the bins, please press the "Back"
|| button.

|| ENDIF

|| ENDIF

|| IF Gasoline price bins and balls = empty THEN

|| IF (Preload indicating whether respondent explicitly chose to have probability questions in percent
|| format = Respondent did not explicitly chose yet to have probability questions in percent format)

|| THEN

|| **E013_bin_none** E013 no balls

|| You did not allocate any balls on the previous screen. If this is due to the dragging and
|| dropping of the balls not working properly then please go back and try to use the plus or minus
|| buttons below each bin (if you have not done so already). Alternatively, you can answer the
|| question in a different format.

|| 1 Answer the question in a different format

|| ENDIF

|| IF (E013 no balls = Answer the question in a different format OR Preload indicating whether
|| respondent explicitly chose to have probability questions in percent format = Respondent chose to
|| have probability questions in percent format) THEN

Q1 BETTER OR WORSE OF THAN YEAR AGO

We are interested in how people are getting along financially these days. Would you say that you are better off or worse off financially than you were a year ago?

- 1 Better off
- 2 About the same
- 3 Worse off

Q2 BETTER OR WORSE OF THAN YEAR FROM NOW

Now looking ahead - do you think that a year from now you will be better off financially, or worse off, or just about the same as now?

- 1 Will be better off
- 2 About the same
- 3 Will be worse off

CS_001 HOW PLEASANT INTERVIEW

Could you tell us how interesting or uninteresting you found the questions in this interview?

- 1 Very interesting
- 2 Interesting
- 3 Neither interesting nor uninteresting
- 4 Uninteresting
- 5 Very uninteresting
