IF (Indicates whether the respondent is part of the refresher sample of November 2011. = (YES) Part of refresher sample of November 2011. AND Indicates how many financial crisis surveys a respondent has completed. < 3) THEN

| intro_refresh intro refresher sample

Beginning in November 2008 we have been surveying people about their health and economic well-being and how they have been faring in these economically difficult times. This questionnaire is part of our study. We will ask you questions related to your health, your household's financial well-being and your outlook for the future. By tracking the health, economic well-being and outlook of households like yours we can learn how problems in the economy are affecting all of us. Whether the changes in your household are large or small, the information you provide is invaluable. [Thank you for participating in the [New question] survey!] We greatly value your input on these topics and hope that you will find this questionnaire interesting. Thank you for your thoughtfulness and effort when answering our surveys and for your continued participation.

intro_refresh2 intro refresher sample part 2

| You will receive \$[reward survey] for completing the survey. We understand that some of the questions | are of a personal nature. Please remember that your answers are extremely important to us. Your | participation is voluntary and you may skip over any questions that you would prefer not to answer. | Your responses are confidential, and it helps us a great deal if you respond as completely, honestly | and accurately as possible. Thank you for your participation!

ELSE

| intro_returningshort intro survey if answered short survey

It is August and time for our next monthly survey! By tracking the health, economic well-being and outlook of households like yours we can learn how problems in the economy are affecting all of us. Whether the changes in your household are large or small, the information you provide is invaluable. As always, thank you for your thoughtfulness and effort when answering our surveys and for your continued participation!

intro_returningshort2 intro 2 survey if answered short survey previously

Some of the monthly surveys are short (like the one in June) and some are long (like the survey in July). The survey for this month is one of the shorter ones. Some questions ask what has happened since a certain date which was when we last asked you these questions. You will receive \$[reward survey] for completing the survey. We understand that some of the questions are of a personal nature. Please remember that your answers are extremely important to us. Your participation is voluntary and you may skip over any questions that you would prefer not to answer. Your responses are confidential, and it helps us a great deal if you respond as completely, honestly and accurately as possible. Thank you for your participation!

E010 intro bins and balls gas prices

| We are interested in how well you think the economy will do in the future. In the next question we will ask you about gasoline prices and how much higher or lower you expect them to be one year from now. | Of course this is not easy to forecast. People will have different opinions about this and some may be | uncertain. For example, someone may think that gasoline prices will go up somewhere between 0% and | 10%, but may also think there is some chance that gasoline prices will fall. We have designed a

method for you to express this kind of uncertainty. We will show you an example on the next screen. **E012a** First bins and balls example | Example: Expectations about changes in gasoline prices one year from now This picture illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins represents a range of price changes. The number of balls in a bin shows the likelihood of the actual price change. No ball in a bin means no chance, and a large number of balls means a large chance. This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks there is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other bins showing there is no chance prices could go up by more than 10% or down by more than 10%. Of course the chances that you have in mind may be completely different. Now it's your turn! **E013** Gasoline price bins and balls Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in gasoline prices. The more likely you think that the change will be in a range represented by one of the bins, the more balls you should put in that bin. To move balls into a bin, click on the + and - buttons under each bin. You can also "drag and drop" the balls with your mouse. String | IF Gasoline price bins and balls = empty THEN || **E013_bin_none** E013 no balls | You did not allocate any balls on the previous screen. If this is due to the dragging and dropping | | of the balls not working properly then please go back and try to use the plus or minus buttons below | each bin (if you have not done so already). Alternatively, you can answer the question in a | | different format. | | 1 Answer the question in a different format | IF (E013 no balls = Answer the question in a different format) THEN | | | **G040** Gasoline price higher in one year | | | What about your expectations about gasoline prices? On a scale from 0 percent to 100 percent | | | where "0" means that you think there is absolutely no chance, and "100" means that you think the | | | event is absolutely sure to happen, what are the chances that by next year at this time gasoline | | | prices will be higher than they are today? | | | Range: 0.0..100.0 | | | IF Gasoline price higher in one year = empty THEN [[Questions G040_NR_SP to G040_NR_DK are displayed as a table] | | | | G040_NR_SP Gasoline price higher in one year after nonresponse |||| [You did not answer. IF (Preload indicating whether respondent explicitly chose to have probability questions in percer format = Respondent did not explicitly chose yet to have probability questions in percent format)			
	E010 intro bins and balls gas prices We are interested in how well you think the economy will do in the future. In the next question we will ask you about gasoline prices and how much higher or lower you expect them to be one year from now. Of course this is not easy to forecast. People will have different opinions about this and some may be uncertain. For example, someone may think that gasoline prices will go up somewhere between 0% and 10%, but may also think there is some chance that gasoline prices will fall. We have designed a method for you to express this kind of uncertainty. We will show you an example on the next screen.		
	E012a First bins and balls example Example: Expectations about changes in gasoline prices one year from now This picture illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins represents a range of price changes. The number of balls in a bin shows the likelihood of the actual price change. No ball in a bin means no chance, and a large number of balls means a large chance. This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks there is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other bins showing there is no chance prices could go up by more than 10% or down by more than 10%. Of course the chances that you have in mind may be completely different. Now it's your turn!		
	E013 Gasoline price bins and balls Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in gasoline prices. The more likely you think that the change will be in a range represented by one of the bins, the more balls you should put in that bin. To move balls into a bin, click on the + and - buttons under each bin. You can also "drag and drop" the balls with your mouse. String
