social_security social security
We are exploring a survey that would collect information about how your reported earnings
compare with your actual earnings. To do this, the survey would ask you to share your Social
Security Number with us. At this point we have not decided to move forward with this survey,
because we want to find out how ALP members would feel about it first. Right now we are only
asking how comfortable you would be with this request. This does not obligate you to do
anything. If we would ask you later for permission, you can still say no, even if you say yes
today. How comfortable would you feel if you were asked to share your Social Security Number
with the American Life Panel, and to give permission to ask the Social Security Administration
for your earnings and employer information?
1 Very comfortable
2. Somewhat comfortable
3. Neither comfortable nor uncomfortable
4. Somewhat uncomfortable
5. Very uncomfortable
6. Not applicable / Prefer not to say

free_education free public education
All children in the United States under the age of 18 are entitled to a free public education from
kindergarten through the 12th grade. This includes children who were brought illegally to the
United States by their parents, often referred to as children of undocumented immigrants. Do you
think that once these children of undocumented immigrants reach the age of 18 and decide to
attend college, they should be allowed to pay the same in-state tuition rates at colleges and
universities in their state of residence as native-born citizens or should they be charged the
rate that out-of-state students pay?
1 Children of undocumented immigrants wanting to attend college should pay **the in-state tuition rate** should they decide
to attend college in their state of residence.
2 Children of undocumented immigrants wanting to attend college should pay **the out-of-state tuition rate** should they
decide to attend college in their state of residence.

softcreditpull   soft pulls credit report
As part of our research study to understand how people make decisions involving their credit, we
have a request for you to consider. In addition to the survey, we would like your permission to
conduct soft pulls of your credit report. Soft pulls will not affect your credit in any way. This
component is completely optional and you can proceed with the survey without authorizing soft pulls
of your credit report. Any information we do receive will be kept confidential. As a reminder,
we will not link your survey responses with your name in any data sets, publications or
presentations of results Do we have your permission to pull your credit report?
1 Yes
2 No

IF soft pulls credit report = Yes THEN
