| This survey uses a slightly different layout than the normal American Life Panel layout. Please fill out the survey as you normally would. Thank you!

|
ENDIF

[The following questions are displayed as a table]

annual_consent Annual consent

This survey will now request your consent to participate in the panel on an annual basis. In our surveys, we ask you to give your opinions confidentially on a number of different subjects. As the surveys are completed, data is made available to registered researchers on a secure website. Over 600 researchers have registered to use data from ALP surveys, and many have published important articles over the years based on these data. The registered researchers summarize survey answers into tables and graphs to be used for scientific or policy research. Researchers may also combine data from multiple surveys in order to gain a broader perspective. The information that you provide is kept confidential, and your identity is never disclosed to the researchers who use the data. Your participation on the panel and in each survey is completely voluntary. We greatly appreciate your participation and use a variety of precautions to ensure that the responses you provide are kept confidential and secure. We use secure links to the Internet, special software that keeps the transmitted information secure, and data handling and storage procedures to ensure that your identity and information are protected at all times. Please select "Agree" below to indicate that: • you have read the above information • you voluntarily agree to participate • you are at least 18 years of age If you no longer wish to participate in the American Life Panel, please decline participation by selecting "Disagree".
