

Well Being 458

[The following questions are displayed as a table]

vhance vhance

We'd like to ask you to think about the upcoming presidential election in 2016. What is the percent chance that you will vote in the presidential election?

Range: 0.00..100.00

vhance_explanation vhance explanation

The percent chance can be thought of as the number of chances out of 100. You can use any number between 0 and 100. For example, numbers like 2 and 5 percent may be 'almost no chance', 20 percent or so may mean 'not much chance', a 45 or 55 percent chance may be a 'pretty even chance', 80 percent or so may mean a 'very good chance', and 95 or 98 percent chance may be 'almost certain'.

IF INTERVIEW LANGUAGE = English THEN

|

| **Negvote** Negative Vote

| Imagine that voters could choose to vote "against" a candidate instead of "for" a candidate. Each voter still only has one vote. Each "against" vote is called a "negative vote" and is counted as minus one. The candidate who receives more "for" votes after the "negative votes" are subtracted wins the election. If the option to vote either "for" or "against" was available, how would you vote? (You can only select one option.)

- | 1 For Clinton
- | 2 Against Clinton
- | 3 For Trump
- | 4 Against Trump
- | 5 For someone else
- | 6 Against someone else
- | 7 Will not vote
- | 8 Not sure

|

ELSE

|

| **Negvote_spanish** Negative Vote spanish

| Imagínese que los votantes podrían elegir a votar "en contra" de un candidato en lugar de un voto "a favor" de un candidato. Cada elector sólo cuenta con un voto. Cada voto "en contra" se llama un "voto negativo" y se cuenta como menos uno. El candidato que reciba más votos "a favor" después de descontar los "votos negativos" gana la elección. Si la opción de votar, ya sea "a favor" o "en contra" estaba disponible, ¿cómo votaría? (Sólo se puede seleccionar una opción.)

- | 1 A favor de Clinton
- | 2 En contra de Clinton
- | 3 A favor de Trump
- | 4 En contra de Trump

| 5 A favor de alguien mas
| 6 En contra de alguien mas
| 7 No va a votar
| 8 No esta seguro
|
ENDIF

NVwilling Negative Vote Willingness

Would having a "negative vote" option affect your willingness to vote?
