

Well Being 476

introduction introduction

Thank you for participating in this survey. This survey is the second in a series of surveys that you will be asked to complete as part of the ALP FluPaths Study. You completed the first FluPaths survey last Fall. For the next three and a half years, you will be asked to complete a survey about twice a year on your thoughts and experiences regarding influenza (flu) and influenza vaccination to help us better understand how your thinking about flu changes over time. Your responses are very important to us, as is your willingness to continue to regularly complete the FluPaths surveys. We are only interested in your perspective – there are no right or wrong answers to any of these questions. If you are uncertain about the answer to a question, please just give your best estimate. Please click "Next" to continue.

Recommendation Recommendation

Since August 2016, has a healthcare provider personally recommended that you get vaccinated for the flu, either in person or by phone or email?

- 1 Yes
- 2 No
- 3 I don't remember

IF Recommendation = Yes THEN

```
|  
| VaccinatedFluRec VaccinatedFluRec  
| Did you receive the flu vaccine in response to this recommendation?  
| 1 Yes  
| 2 No  
| 3 I don't remember
```

ENDIF

IF VaccinatedFluRec != Yes THEN

```
|  
| VaccinatedFlu VaccinatedFlu  
| Have you been vaccinated for the flu this year (since August 2016)?  
| 1 Yes  
| 2 No  
| 3 I don't remember
```

ENDIF

IF VaccinatedFluRec = Yes or VaccinatedFlu = Yes THEN

```
|  
| VaccinatedWhen VaccinatedWhen  
| What month did you get vaccinated for the flu?  
| 1 I don't remember  
| 2 August 2016  
| 3 September 2016  
| 4 October 2016  
| 5 November 2016  
| 6 December 2016  
| 7 January 2017  
| 8 February 2017  
| 9 March 2017  
| 10 April 2017
```

```
| IF VaccinatedWhen = I don't remember THEN
```

```

SRS_SF1 SRS_SF1

Please answer the following questions to the best of your ability, given the information provided.

A researcher has a group of subjects play a competitive game. Each subject's goal is to make money by buying and selling tokens. Subjects are paid a flat fee for participating in the experiment.

True or False? The researcher can confidently state that the behavior in the experiment reflects real-life buying and selling behavior.

1 True

2 False

SRS_SF2 SRS_SF2

Subjects in an experiment must press a button whenever a blue dot flashes on their computer screen.

At first, the task is easy for subjects. But as they continue to perform the task, they make more

and more errors. True or False? The blue dot must flash more quickly as the task progresses.

- 1 True
- 2 False

SRS_SF3 SRS_SF3

A researcher has subjects put together a jigsaw puzzle either in a cold room with a loud radio, or in a warm room with no radio. Subjects solve the puzzle more quickly in the warm room with no radio. True or False? The researcher cannot tell if the radio caused subjects to solve the puzzle more slowly.

- 1 True
- 2 False

SRS_SF4 SRS_SF4

A researcher develops a new method for measuring the surface tension of liquids. This method is more consistent than the old method. True or False? The new method must also be more accurate than the old method.

- 1 True
- 2 False

thankyou thank you

Thank you once again for your time. As a reminder, you will receive an invitation in the Fall to participate in the next FluPaths survey.
