ENDIF

PNUM_INTRO PROBABILITY NUMERACY INTRO

Now we would like to ask you some questions about the chance of something happening or not
happening. We would like you to give a number from 0 to 100, where "0" means that you think there
is absolutely no chance, and "100" means that you think the event is absolutely sure to happen.
Consider a bowl with 10 balls in total. Some of the balls may be white and some red.

PNUM_1 PNUM_1 PROBABILITY NUMERACY ITEM 1

First, suppose this bowl has 10 white balls and no red balls. You will be asked to draw one ball
without looking. On a scale from 0 percent to 100 percent, what is the percent chance that the
ball you draw is red?

Range: 0.00..100.00

PNUM_2 PNUM_2 PROBABILITY NUMERACY ITEM 2

Now suppose that the bowl has 7 white balls and 3 red balls. You will be asked to draw one ball
without looking. What is the percent chance that the ball you draw is white?

Range: 0.00..100.00

PNUM_3 PNUM_3 PROBABILITY NUMERACY ITEM 3

Imagine that the weather report tells you that the chance it will rain tomorrow is 70%. Assuming
the weather report accurately reports the chance of rain, what is the chance it will NOT rain
tomorrow?

Range: 0.00..100.00

PNUM_4 PNUM_4 PROBABILITY NUMERACY ITEM 4

Imagine that whether it rains in your town and whether it rains in Paris are unrelated. The chance
that it will rain in your town tomorrow is 50%. The chance that it will rain in Paris is also 50%.
What is the chance that it will rain both in your town and in Paris tomorrow?

Range: 0.00..100.00

[The following questions are displayed as a table]

SR01 SR01 Savings regret, positive shocks

Sometimes people have positive surprises earlier in life that help their finances turn out better
than expected. Did any of the following happen to you? (Check all that apply.)

- 1 My salary or earnings were higher than expected
- 2 My spouse made more money than expected
- 3 I worked longer than expected
- 4 My spouse worked longer than expected
- 5 Household spending was lower than expected
- 6 My/our investments or business performed better than expected
- 7 Received financial help from family
- 8 Received an inheritance (self or spouse)
- 9 Other (please specify: \$Answer2\$) **OR**
- 10 No, none of these happened.
