

Well Being 488

intro2 intro

Thank you for participating in this survey. This survey is the third in a series of surveys that you will be asked to complete as part of the ALP FluPaths Study. You completed the first FluPaths survey last Fall. For the next three years, you will be asked to complete a survey about twice a year on your thoughts and experiences regarding influenza (flu) and influenza vaccination to help us better understand how your thinking about flu changes over time. Your responses are very important to us, as is your willingness to continue to regularly complete the FluPaths surveys. We are only interested in your perspective – there are no right or wrong answers to any of these questions. If you are uncertain about the answer to a question, please just give your best guess. Please click "Next" to continue.

IF completed ms476 = No THEN

| **Recommendation** Recommendation

| The following questions ask about your experiences during last year's flu season (between August 2016 through April 2017). Last year (between August 2016 through April 2017), did a healthcare provider personally recommend that you get vaccinated for the flu, either in person or by phone or email?

| 1 Yes

| 2 No

| 3 I don't remember

NeverSometimesAlways NeverSometimesAlways

Would you say that you are generally the type of person who always get vaccinated for the flu (that
is, you get vaccinated every year), sometimes get vaccinated for the flu, or never get vaccinated
for the flu?

1 Always vaccinate for flu

2 Sometimes vaccinate for flu

3 Never vaccinate for flu

[The following questions are displayed as a table]

FluExpectationNeverVacc FluExpectationNeverVacc

Imagine a person who never gets vaccinated for the flu. What do you think are the chances that they
will catch the flu this coming flu season? Either click on the scale or type your answer in the
box below. (If you type in your answer, do not use non-numeric characters like %.)

Range: 0.0..100.0

[End of table display]

FluTimeNoVacc FluTimeNoVacc

Again, imagine that same person who never gets vaccinated for the flu. If you had to guess, about

how many years do you think it will be before that person next catches the flu?

- 1 This flu season
- 2 Next flu season
- 3 Two to four flu seasons from now
- 4 Five to nine flu seasons from now
- 5 Ten or more flu seasons from now

FluRiskUniformity FluRiskUniformity

Again, imagine that same person who never gets vaccinated for the flu. How much do you think that person's risk of catching the flu changes from year to year?

- 1 No change at all
- 2 Very little change
- 3 Modest change
- 4 Quite a bit of change
- 5 A great deal of change

[The following questions are displayed as a table]

PanFluExpectation PanFluExpectation

What do you think are the chances that a widespread flu pandemic (like the 2009-2010 H1N1 flu pandemic) happens in the next three years? Either click on the scale or type your answer in the box below. (If you type in your answer, do not use non-numeric characters like %.)

Range: 0.0..100.0

[End of table display]

PanFluTime PanFluTime

If you had to guess, about how many years do you think it will be before the next widespread flu pandemic?

- 1 This flu season
- 2 Next flu season
- 3 Two to four flu seasons from now
- 4 Five to nine flu seasons from now
- 5 Ten or more flu seasons from now

[The following questions are displayed as a table]

DescriptiveVaccNorm DescriptiveVaccNorm
