

(MS527) FLUPATHS [W06]

Introduction

Thank you for participating in this survey. This survey is the sixth in a series of surveys that you will be asked to complete as part of the ALP FluPaths Study. You completed the first FluPaths survey in Fall 2016. For the next year and a half, you will be asked to complete a survey about twice a year on your thoughts and experiences regarding influenza (flu) and influenza vaccination to help us better understand how your thinking about flu changes over time. Your responses are very important to us, as is your willingness to continue to regularly complete the FluPaths surveys. We are only interested in your perspective – there are no right or wrong answers to any of these questions. If you are uncertain about the answer to a question, please just give your best estimate. Please click “Next” to continue.

ALTERACTIVE -

Recall that in past FluPaths surveys, you listed people with whom you discussed matters important to you at some point over the last several years. The next set of questions is about this list of people. First, we want to make sure that each of these people should still be on your list or if you would like to remove any of them for any reason, such as if they have passed away. Please review the list below, and uncheck any people that should no longer be on the list of people we ask you about.
