Well Being 94

core_intro core intro
This fall, there are two types of influenza (flu) virus. One is the normal "seasonal" flu, and the other is the H1N1 (swine) flu. These two viruses require two separate vaccines. The following questions ask your opinions about seasonal and H1N1 (swine) flu.

C1 might get sick from swine flu
How concerned are you that you might get sick from H1N1 (swine) flu?
1 Very concerned
2 Somewhat concerned
3 Not very concerned
4 Not at all concerned

[Questions O7 to O7_other are displayed as a table]

O7 special precautions
Have you or your family members made special precautions to protect yourself/yourselves against H1N1 (swine) flu? Please check all that apply.
1 Increased frequency of hand washing
2 Bought antiviral medication
3 Bought any type of face mask
4 Avoided public gatherings and contact with others
5 Avoided travel
6 Stockpiled food/water
7 Stockpiled prescription drugs
8 Other, please specify:
9 None

O7_other other

String

IF random number for set = 1 THEN
|
| **K1_1** touching objects
| You cannot catch the flu by touching objects that an infected person has touched.
| 1 True
| 2 False
|
| **K2_1** symptoms
| You may have the H1N1 (swine) flu virus for one to four days before getting symptoms of the
| flu.
| 1 True
| 2 False
|
| **K3_1** mutate
| Influenza viruses mutate frequently, so the current virus may change.
| 1 True
| 2 False
|
ELSE
|

| **K1_2** hand washing
| Regular hand washing is one of the best ways to protect yourself against H1N1 (swine) flu.
| 1 True
| 2 False
|
| **K2_2** contagious
| People with H1N1 (swine) flu are only contagious when they have symptoms.
| 1 True
| 2 False
|
| **K3_2** pandemic
| If the H1N1 (swine) flu spreads around the world as a pandemic, it may come back in a second
| wave during the fall.
| 1 True
| 2 False
|
ENDIF

IF got season flu vaccine this fall = No and random choice < 3 THEN
|
| **E7a** plan to get a seasonal flu shot or FluMist in the next few months
| Do you plan to get a seasonal flu shot or FluMist in the next few months?
| 1 Yes
| 2 No
| 3 I don't know
|
ELSEIF got season flu vaccine this fall = No and random choice = 3 THEN
|
| **E7b** plan to get a seasonal flu shot or FluMist in the next few months
| Do you plan to get a seasonal flu shot or FluMist in the next few months?
| 1 Yes
| 2 No
|
ELSEIF got season flu vaccine this fall = Yes THEN
|
| **E7c** H1N1 (swine) flu influence your decision to get the seasonal flu shot or FluMist this year
| Did H1N1 (swine) flu influence your decision to get the seasonal flu shot or FluMist this year?
| 1 Yes, H1N1 (swine) flu increased my desire to get the seasonal flu shot or FluMist
| 2 No, H1N1 (swine) flu did not increase my desire to get the seasonal flu shot or FluMist
|
ENDIF

O1 anyone you know
Has anyone you know become sick with H1N1 (swine) flu?
1 Yes
2 No

percent_chance_intro percent chance intro
Now we will ask you some questions about future behaviors and uncertain outcomes. In each case,
try to think about the whole range of possibilities and think about how likely they are to occur. In these
questions, we will ask you about the percent chance of something happening. The percent chance must be a
number from 0 to 100. You can also give numbers after the decimal point. Here are some descriptions
corresponding to different chances of something happening:

Absolutely will not happen = 0 % chance   A very
small chance = Less than 1% chance   A small chance = 2 to 15 % chance
   A reasonable chance = 15 to 40 % chance   A
pretty even chance = 40 to 60% chance   A big chance = 60 to 85 % chance
   A very big chance = 85 to 98 % chance   Almost
certain = More than 99% chance   Absolutely certain = 100% chance You
can also think of percent chance as the number of times something happens out of 100.

E9 chances that you would get the vaccine
For this question, consider the H1N1 (swine) flu vaccine. What are the chances that you would
get the vaccine?
Long

C3 get swine flu next month
What do you think are the chances that you will get H1N1 (swine) flu in the next month?
Long

IF get swine flu next month >= and get swine flu next month <= 1 THEN
|
| **C3_extra** get swine flu next month extra
| We would like to get extra information about the last question. What do you think are the
| chances that you will get H1N1 (swine) flu in the next month?
| 1 0%
| 2 More than 0% and less than or equal to .001% (1/100,000)
| 3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)
| 4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)
| 5 More than .1% (1/1,000) and less than or equal to 1% (1/100)
| 6 1%
|
ENDIF

C4 die from swine flu
If you do catch H1N1 (swine) flu, what do you think are the chances that you will die from it?
Long

IF die from swine flu >= and die from swine flu <= 1 THEN
|
| **C4_extra** die from swine flu extra
| We would like to get extra information about the last question. If you do catch H1N1 (swine)
| flu, what do you think are the chances that you will die from it?
| 1 0%
| 2 More than 0% and less than or equal to .001% (1/100,000)
| 3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)
| 4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)
| 5 More than .1% (1/1,000) and less than or equal to 1% (1/100)
| 6 1%
|
ENDIF

IF got season flu vaccine this fall = No THEN
|
| **E12** chances that you would get a seasonal flu vaccine this fall
| For this question, consider the seasonal flu vaccine, NOT the potential swine flu vaccine.

| What are the chances that you would get a seasonal flu vaccine this fall?
| Long
|
ENDIF

[Questions probflu to f24ast2 are displayed as a table]

probflu chances get influenza this winter
What do you think are the chances that you will get seasonal flu this winter?

f24ast1 chances flu have a flu shot
Assume that you get a flu shot.
Range: 0.00..100.00

f24ast2 chances flu do not have a flu shot
Assume that you do not get a flu shot.
Range: 0.00..100.00

E15 chances of dying if catch seasonal flu this winter
If you do catch seasonal flu this winter, what do you think are the chances that you will die from it?
Long

IF chances of dying if catch seasonal flu this winter >= and chances of dying if catch seasonal flu this winter <= 1 THEN
|
| **E15_extra** chances of dying if catch seasonal flu this winter extra
| We would like to get extra information about the last question. If you do catch seasonal flu
| this winter, what do you think are the chances that you will die from it?
| 1 0%
| 2 More than 0% and less than or equal to .001% (1/100,000)
| 3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)
| 4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)
| 5 More than .1% (1/1,000) and less than or equal to 1% (1/100)
| 6 1%
|
ENDIF

CS_001 HOW PLEASANT INTERVIEW
Could you tell us how interesting or uninteresting you found the questions in this interview?
1 Very interesting
2 Interesting
3 Neither interesting nor uninteresting
4 Uninteresting
5 Very uninteresting
