This survey starts off by asking you about your perceptions of the economy. You will have seen some of these questions in previous surveys. We are asking them again to find out about your current views. Your answers are important to us. Please answer the following questions as well as you can. If you should come to any question that you can't or don't want to answer, just click on 'Next' until the next question appears.

Q1  BETTER OR WORSE OF THAN YEAR AGO
We are interested in how people are getting along financially these days. Would you say that you [AND YOUR FAMILY LIVING THERE] are better off or worse off financially than you were a year ago?
  1 Better off
  2 About the same
  3 Worse off

Q2  BETTER OR WORSE OF THAN YEAR FROM NOW
Now looking ahead - do you think that a year from now you [AND YOUR FAMILY LIVING THERE] will be better off financially, or worse off, or just about the same as now?
  1 Will be better off
  2 About the same
  3 Will be worse off

[Questions Q2a to Q2a_other are displayed as a table]

Q2a  GOOD TIMES FINANCIALLY OR BAD TIMES OR WHAT
Now turning to business conditions in the country as a whole -- do you think that during the next 12 months we'll have good times financially, or bad times, or what?

Now turning to business conditions in the country as a whole - do you think that during the
next 12 months we'll have good times financially, or bad times, or what?

Would you say that at the present time business conditions are better or worse than they were a
year ago?

And how about a year from now, do you expect that in the country as a whole business conditions
will be better, or worse than they are at present, or just about the same?

As to the economic policy of the government -- such as steps taken to fight inflation or
unemployment -- would you say the government is doing a good job, only fair, or a poor job?

How about people out of work during the coming 12 months -- do you think that there will be
more unemployment than now, about the same, or less?

No one can say for sure, but what do you think will happen to interest rates for borrowing
money during the next 12 months -- will they go up, stay the same, or go down?

During the next 12 months, do you think that prices in general will go up, or go down, or stay
where they are now?

Do you mean that prices will go up at the same rate as now, or that prices in general will
not go up during the next 12 months?
