Well Being 82

C1 might get sick from swine flu
How concerned are you that you might get sick from H1N1 (swine) flu?
1 Very concerned
2 Somewhat concerned
3 Not very concerned
4 Not at all concerned

[Questions O7 to O7_other are displayed as a table]

O7 special precautions
Have you or your family members made special precautions to protect yourself/yourselves against H1N1 (swine) flu? Please check all that apply.
1 Increased frequency of hand washing
2 Bought antiviral medication
3 Bought any type of face mask
4 Avoided public gatherings and contact with others
5 Avoided travel
6 Stockpiled food/water
7 Stockpiled prescription drugs
8 Other, please specify:
9 None

O7_other other

String

O1 anyone you know
Has anyone you know gotten sick with H1N1 (swine) flu?
1 Yes
2 No

O5 government provided information
To what extent has the U.S. government provided you the information that you need to protect yourself and your family from H1N1 (swine) flu?
1 Completely
2 Mostly
3 Somewhat
4 A little
5 Not at all

IF random number for set = 1 THEN

| K1_1 touching objects
| You cannot catch the flu by touching objects that an infected person has touched.
| 1 True
| 2 False

| K2_1 symptoms
| You may have the H1N1 (swine) flu virus for one to four days before getting symptoms of the flu.
| 1 True
Influenza viruses mutate frequently, so the current virus may change.

Regular hand washing is one of the best ways to protect yourself against H1N1 (swine) flu.

People with H1N1 (swine) flu are only contagious when they have symptoms.

If the H1N1 (swine) flu spreads around the world as a pandemic, it may come back in a second wave during the fall.

Now we will ask you some questions about future behaviors and uncertain outcomes. In each case, try to think about the whole range of possibilities and think about how likely they are to occur. In these questions, we will ask you about the percent chance of something happening. The percent chance must be a number from 0 to 100. You can also give numbers after the decimal point. Here are some descriptions corresponding to different chances of something happening:

- Absolutely will not happen = 0 % chance
- A very small chance = Less than 1% chance
- A small chance = 2 to 15 % chance
- A reasonable chance = 15 to 40 % chance
- A pretty even chance = 40 to 60% chance
- A big chance = 60 to 85 % chance
- A very big chance = 85 to 98 % chance
- Almost certain = More than 99% chance
- Absolutely certain = 100% chance

You can also think of percent chance as the number of times something happens out of 100.

If a vaccine becomes available for the H1N1 (swine) flu this fall, what are the chances that you would get the vaccine?

What do you think are the chances that you will get H1N1 (swine) flu in the next month?

We would like to get extra information about the last question. What do you think are the
chances that you will get H1N1 (swine) flu in the next month?

1 0%
2 More than 0% and less than or equal to .001% (1/100,000)
3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)
4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)
5 More than .1% (1/1,000) and less than or equal to 1% (1/100)
6 1%

ENDIF

C4 die from swine flu
If you do catch H1N1 (swine) flu, what do you think are the chances that you will die from it?
Long
IF die from swine flu >= and die from swine flu <= 1 THEN

| C4_extra die from swine flu extra
| We would like to get extra information about the last question. If you do catch H1N1 (swine) flu, what do you think are the chances that you will die from it?
| 1 0%
2 More than 0% and less than or equal to .001% (1/100,000)
3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)
4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)
5 More than .1% (1/1,000) and less than or equal to 1% (1/100)
6 1%

ENDIF

O2 infects over 10,000 in U.S.
What are the chances that there will be an outbreak of H1N1 (swine) flu this fall that infects over 10,000 people in the U.S.?
Long
IF infects over 10,000 in U.S. >= and infects over 10,000 in U.S. <= 1 THEN

| O2_extra infects over 10,000 in U.S. extra
| We would like to get extra information about the last question. What are the chances that there will be an outbreak of H1N1 (swine) flu this fall that infects over 10,000 people in the U.S.?
| 1 0%
2 More than 0% and less than or equal to .001% (1/100,000)
3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)
4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)
5 More than .1% (1/1,000) and less than or equal to 1% (1/100)
6 1%

ENDIF

HR001 currently covered by health insurance policy
Are you currently covered by a health insurance policy?
1 Yes
2 No
HR002 willing to pay more
Would you be willing to pay more money, either through taxes or higher health insurance premiums, so that more Americans could have access to insurance?
1 Yes
2 No
3 Uncertain

HR003 how good quality of medical care
How good is the quality of medical care in the US health care system today?
1 Excellent
2 Very good
3 Good
4 Fair
5 Poor

HR004 medical care quality if health reform enacted
Would the quality of medical care in the US be better or worse if health reform is enacted?
1 Better
2 Worse
3 About the same

HR005 spend more or less on health care
Do you think you will spend more or less on health care if health reform is enacted?
1 More
2 Less
3 About the same

HR006 access to health care better or worse
Do you think that your access to health care will be better or worse if health reform is enacted?
1 Better
2 Worse
3 About the same

HR007 help or harm US economy
Do you think that health reform will help or harm the US economy in the long term?
1 Help
2 Harm
3 No effect

HR008 concerned about impact of health care costs on personal finances
How concerned are you about the impact of health care costs on your personal finances?
1 Not concerned
2 Somewhat concerned
3 Neither concerned nor unconcerned
4 Concerned
5 Extremely concerned

HR009 policies you support to expand health care coverage
Which policies do you support as a way to expand health care coverage? (Check all that apply)
1 Requiring all businesses to offer health insurance to employees
2 Requiring all individuals to obtain health insurance coverage
3 Expanding Medicaid and other public health insurance programs
4 Making it easier and more affordable to get health insurance coverage directly from insurers, rather than through an employer
5 Having a national health insurance plan in which all Americans would get coverage from a single insurer similar to Medicare

**HR010** policies you support as a way to reduce health care costs
Which policies do you support as a way to reduce health care costs? (Check all that apply)
1 Developing new payment strategies for physicians and hospitals, such as capping payments on a per-patient-per-year basis
2 Increasing government funding for preventive services, such as colonoscopy and mammography
3 Taxing sugar-sweetened beverages
4 Taxing employer-sponsored health insurance benefits
5 Creating a government-sponsored health insurance plan similar to Medicare that would compete with private health insurance companies

**CS_001** HOW PLEASANT INTERVIEW
Could you tell us how interesting or uninteresting you found the questions in this interview?
1 Very interesting
2 Interesting
3 Neither interesting nor uninteresting
4 Uninteresting
5 Very uninteresting
