intro_returning intro survey long financial crisis questionnaire

Welcome to our next monthly survey about your health and economic well-being! Since May 2009 we have been asking you every month about your health and economic well-being. Some of these monthly surveys are short (like August and September 2010) and some are long (like the survey in July 2010). The survey for this month is one of the long ones. We will ask you questions related to your health, your household's financial well-being and your outlook for the future. Several questions may appear familiar to you from prior surveys as we are trying to monitor how households fare over time. We greatly value your input on these topics and hope that you will find this questionnaire interesting. You will receive \$20 for completing the survey. We understand that some of these questions are of a personal nature. Please remember that your answers are extremely important to us. Your participation is voluntary and you may skip over any questions that you would prefer not to answer. Your responses are confidential, and it helps us a great deal if you respond as completely, honestly and accurately as possible. Thank you for your participation! And finally: Watch out for our October Newsletter which is being mailed this week together with your checks!

ST010 chance investment blue chips worth more year from now

We are interested in how well you think the economy will do in the future. On a scale from 0 percent to 100 percent where "0" means that you think there is absolutely no chance, and "100" means that you think the event is absolutely sure to happen, what are the chances that by next year at this time mutual fund shares invested in blue chip stocks like those in the Dow Jones Industrial Average will be worth more than they are today?

Range: 0.0..100.0

IF chance investment blue chips worth more year from now = empty THEN

BIntroLong intro to spending questions

The next questions are about how much your household spent on certain items in the last calendar month (i.e. during the month of [holder for previous month name]). As you will see, the list does not cover all types of spending, only those that tend to be most frequent. We will ask about additional types of spending a little later, and you will have a chance to report about those less frequently purchased items. [(Click here for a list of spending categories that we DO NOT ask about in this survey.)/ (Click here for a list of spending categories that we ask about LATER IN THIS survey.)] Please provide your best estimate of how much in total your household spent in the described categories. Please include spending by all members of your household, that is, by you and anyone living with you. Even if the amount your household spent last calendar month was unusual, please report that amount.
