intro refresh intro refresher sample

WELCOME TO OUR MONTHLY SURVEYS ON HEALTH AND ECONOMIC WELL-BEING! Beginning in November 2008 we have been surveying people about their health and economic well-being and how they have been faring in these economically difficult times. This questionnaire is part of our study. We will ask you questions related to your health, your household's financial well-being and your outlook for the future. By tracking the health, economic well-being and outlook of households like yours we can learn how problems in the economy are affecting all of us. Whether the changes in your household are large or small, the information you provide is invaluable. We greatly value your input on these topics and hope that you will find this questionnaire interesting. Thank you for your thoughtfulness and effort when answering our surveys and for your continued participation.

LS001 life satisfaction as a whole

To begin with, we have some general questions about your life. Taking all things together, how satisfied are you with your life as a whole these days?

- 1 Very satisfied
- 2 Satisfied
- 3 Neither satisfied nor dissatisfied
- 4 Dissatisfied
- 5 Very dissatisfied

VS301 intro job satisfaction

How satisfied are you with your job or other daily activities?

- 1 Very satisfied
- 2 Satisfied
- 3 Neither satisfied nor dissatisfied
- 4 Dissatisfied
- 5 Very dissatisfied

LS002 total household income satisfaction

How satisfied are you with the total income of your household?

- 1 Very satisfied
- 2 Satisfied
- 3 Neither satisfied nor dissatisfied
- 4 Dissatisfied
- 5 Very dissatisfied

LS003 economic situation satisfaction

How satisfied are you with your overall economic situation?

- 1 Very satisfied
- 2 Satisfied
- 3 Neither satisfied nor dissatisfied
- 4 Dissatisfied
- 5 Very dissatisfied

C901 health condition

Would you say your health is excellent, very good, good, fair, or poor?

- 1 Excellent
- 2 Very good
- 3 Good
- 4 Fair
- 5 Poor

HH003 difficulties sleeping none to severe

Overall in the last 30 days, how much difficulty did you have sleeping, such as falling asleep, waking up frequently during the night or waking up too early in the morning?

- 1 None
- 2 Some
- 3 Moderate
- 4 Severe
- 5 Extreme

HH004 depression problems none to severe

Overall in the last 30 days, how much of a problem did you have with feeling sad, low, or depressed?

- 1 None
- 2 Some
- 3 Moderate
- 4 Severe
- 5 Extreme

RH009_intro how you have felt last 30 days

The following questions ask about how often you have felt certain ways during the past 30 days. For each question, please give the one answer that comes closest to describing your situation.

RH009_g felt wornout

During the past 30 days, how much of the time have you felt worn out?

- 1 All of the time
- 2 Most of the time
- 3 A good bit of the time
- 4 Some of the time
- 5 A little of the time
- 6 None of the time

RH009 h been a happy person

During the past 30 days, how much of the time have you been a happy person?

- 1 All of the time
- 2 Most of the time
- 3 A good bit of the time
- 4 Some of the time
- 5 A little of the time
- 6 None of the time

IF Random balls and bins = Balls and bins AND Preload indicating whether respondent explicitly chose to have probability questions in percent format = Respondent did not explicitly chose yet to have probability questions in percent format THEN

| **E010** intro bins and balls gas prices

We are interested in how well you think the economy will do in the future. In the next question we will ask you about gasoline prices and how much higher or lower you expect them to be one year from now. Of course this is not easy to forecast. People will have different opinions about this and some may be uncertain. For example, someone may think that gasoline prices will go up somewhere between 0% and 10%, but may also think there is some chance that gasoline prices will fall. We have designed a method for you to express this kind of uncertainty. We will show you an example on the next screen.

E012a First bins and balls example

Example: Expectations about changes in gasoline prices one year from now This picture illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins represents a range of price changes. The number of balls in a bin shows the likelihood of the actual price change. No ball in a bin means no chance, and a large number of balls means a large chance. This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it most likely gasoline prices will go up between 0 and 10%. There are 6 balls in the bin -10% to 0% because s/he thinks there is a smaller chance that prices could go down by 0% to 10%. There are no balls in the other bins showing there is no chance prices could go up by more than 10% or down by more than 10%. Of course the chances that you have in mind may be completely different. Now it's your turn!

E013 Gasoline price bins and balls

```
Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in
gasoline prices. The more likely you think that the change will be in a range represented by one
of the bins, the more balls you should put in that bin. To move balls into a bin, click on the +
and - buttons under each bin. You can also "drag and drop" the balls with your mouse.

| ENDIF IF (Preload indicating whether respondent explicitly chose to have probability questions in percent format = Respondent did not explicitly chose yet to have probability questions in percent | format) THEN | **E010** intro bins and balls gas prices | We are interested in how well you think the economy will do in the future. In the next question | we will ask you about gasoline prices and how much higher or lower you expect them to be one | | year from now. Of course this is not easy to forecast. People will have different opinions | | about this and some may be uncertain. For example, someone may think that gasoline prices | | will go up somewhere between 0% and 10%, but may also think there is some chance that gasoline | | prices will fall. We have designed a method for you to express this kind of uncertainty. We | | will show you an example on the next screen. | | || **E012a** First bins and balls example || Example: Expectations about changes in gasoline prices one year from now This picture | illustrates this uncertainty about the one-year change in gasoline prices. Each of the six bins | represents a range of price changes. The number of balls in a bin shows the likelihood of the | | actual price change. No ball in a bin means no chance, and a large number of balls means a | | large chance. This person put 14 balls (out of 20) in the bin 0% to 10% because s/he thinks it | most likely gasoline prices will go up between 0 and 10%. There are 6 balls in the bin -10% to | 0% because s/he thinks there is a smaller chance that prices could go down by 0% to 10%. There | | are no balls in the other bins showing there is no chance prices could go up by more than 10% or | down by more than 10%. Of course the chances that you have in mind may be completely | | different. Now it's your turn! | **E013** Gasoline price bins and balls | Please put the 20 balls in the 6 bins to reflect your expectations about one-year changes in | gasoline prices. The more likely you think that the change will be in a range represented by | one of the bins, the more balls you should put in that bin. To move balls into a bin, click on | | the + and - buttons under each bin. You can also "drag and drop" the balls with your mouse. | | String | IF (Gasoline price bins and balls != empty AND !checkBins(Gasoline price bins and balls, 20 ||)) THEN ||| **binerror** bin error | | | You did not put all the balls in the bins. Your answers are important to us. Please try to | | answer as best you can.
