Well Being 324

introduction
In this survey we will ask you questions about your work and pensions, as well as how your health impacts paid work activities. This survey is a continuation of the interviews you participated in recently in which we asked you questions about your household composition, family structure and housing situation. This survey may sometimes refer back to answers you provided in those interviews. It may also refer back to answers you provided in a similar series of interviews you participated in some year(s) ago. Please note that at some points during the survey it may take some time (up to 2 minutes) to progress from one screen to the other. If you can just be patient until the next question screen appears, we would very much appreciate it.

dummy1 New question
We will now retrieve information you provided to us in previous interviews. Note that this may take a few moments, so please be patient until the next screen appears. Thank you very much for your patience! Please just click next to continue.
