Q2_intro Q2_intro

There will be a general election in your state in November, including an election for the member of the US House of Representatives from your district[], plus other state and local offices. []spWhat do you think is the percent chance that each of the candidates will win in the election? Please provide percent chance in the table below. The percent chance can be thought of as the number of chances out of 100. You can use any number between 0 and 100. For example, numbers like 2 and 5 percent may be 'almost no chance', 20 percent or so may mean 'not much chance', a 45 or 55 percent chance may be a 'pretty even chance', 80 percent or so may mean a 'very good chance', and 95 or 98 percent chance may be 'almost certain'.

Q3_intro Q3_intro

Here's a list of sports that children often play in organized leagues or at school. Given what you know about safety in each of these sports, please indicate if you would feel comfortable allowing any of your children to participate in that sport, or not. If you do not have children, or your children have grown up, respond as though you had school-age sons and daughters.

LOOP FROM 1 TO 9 DO

| **Q3_son** Feel comfortable allowing your son to participate

| 1: Baseball, 2: Basketball, 3: Cheerleading, 4: Field Hockey, 5: Football, 6: Gymnastics, 7: Ice Hockey, 8: Soccer, 9: Track

| **Q3_daughter** Feel comfortable allowing your daughter to participate

| 1: Baseball, 2: Basketball, 3: Cheerleading, 4: Field Hockey, 5: Football, 6: Gymnastics, 7: Ice Hockey, 8: Soccer, 9: Track
