

## Well Being 79

**C1** might get sick from swine flu

How concerned are you that you might get sick from H1N1 (swine) flu?

- 1 Very concerned
- 2 Somewhat concerned
- 3 Not very concerned
- 4 Not at all concerned

[Questions O8 to O8\_other are displayed as a table]

**O8** information

Where do you get most of your information on H1N1 (swine) flu? Please check all that apply.

- 1 Directly from the CDC (like from their website)
- 2 Internet
- 3 TV
- 4 Radio
- 5 Telephone
- 6 Doctor or other healthcare provider
- 7 Personal communication (such as talking to family, colleagues, or friends)
- 8 Employer
- 9 Newspapers or magazines
- 10 Other, please specify:
- 11 None

**O8\_other** other

String

**O5** government provided information

To what extent has the U.S. government provided you the information that you need to protect yourself and your family from H1N1 (swine) flu?

- 1 Completely
- 2 Mostly
- 3 Somewhat
- 4 A little
- 5 Not at all

IF random number for set = 1 THEN

|

| **K1\_1** touching objects

| You cannot catch the flu by touching objects that an infected person has touched.

- | 1 True
- | 2 False

|

| **K2\_1** symptoms

| You may have the H1N1 (swine) flu virus for one to four days before getting symptoms of the flu.

- | 1 True
- | 2 False

|

| **K3\_1** mutate

| Influenza viruses mutate frequently, so the current virus may change.

| 1 True  
| 2 False

ELSE

| **K1\_2** hand washing

| Regular hand washing is one of the best ways to protect yourself against H1N1 (swine) flu.

| 1 True  
| 2 False

| **K2\_2** contagious

| People with H1N1 (swine) flu are only contagious when they have symptoms.

| 1 True  
| 2 False

| **K3\_2** pandemic

| If the H1N1 (swine) flu spreads around the world as a pandemic, it may come back in a second wave during the fall.

| 1 True  
| 2 False

ENDIF

**percent\_chance\_intro** percent chance intro

Now we will ask you some questions about future behaviors and uncertain outcomes. In each case, try to think about the whole range of possibilities and think about how likely they are to occur. In these questions, we will ask you about the percent chance of something happening. The percent chance must be a number from 0 to 100. You can also give numbers after the decimal point. Here are some descriptions corresponding to different chances of something happening:

Absolutely will not happen = 0 % chance    A very  
small chance = Less than 1% chance    A small chance = 2 to 15 % chance  
A reasonable chance = 15 to 40 % chance    A  
pretty even chance = 40 to 60% chance    A big chance = 60 to 85 %  
chance    A very big chance = 85 to 98 % chance  
Almost certain = More than 99% chance  
Absolutely certain = 100% chance You can also think of percent chance  
as the number of times something happens out of 100.

**C2** get vaccine

If a vaccine becomes available for the H1N1 (swine) flu this fall, what are the chances that you would get the vaccine?

Long

**C3** get swine flu next month

What do you think are the chances that you will get H1N1 (swine) flu in the next month?

Long

IF get swine flu next month >= and get swine flu next month <= 1 THEN

| **C3\_extra** get swine flu next month extra

| We would like to get extra information about the last question. What do you think are the chances that you will get H1N1 (swine) flu in the next month?

| 1 0%

| 2 More than 0% and less than or equal to .001% (1/100,000)  
 | 3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)  
 | 4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)  
 | 5 More than .1% (1/1,000) and less than or equal to 1% (1/100)  
 | 6 1%  
 |  
 ENDIF

#### **C4** die from swine flu

If you do catch H1N1 (swine) flu, what do you think are the chances that you will die from it?  
 Long

IF die from swine flu >= and die from swine flu <= 1 THEN

|  
 | **C4\_extra** die from swine flu extra  
 | We would like to get extra information about the last question. If you do catch H1N1 (swine)  
 | flu, what do you think are the chances that you will die from it?  
 | 1 0%  
 | 2 More than 0% and less than or equal to .001% (1/100,000)  
 | 3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)  
 | 4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)  
 | 5 More than .1% (1/1,000) and less than or equal to 1% (1/100)  
 | 6 1%  
 |  
 ENDIF

#### **O9** stay home from work

If they closed schools in your area because of H1N1 (swine) flu, what are the chances that you  
 would stay home from work?  
 Long

#### **O2** infects over 10,000 in U.S.

What are the chances that there will be an outbreak of H1N1 (swine) flu this fall that infects  
 over 10,000 people in the U.S.?  
 Long

IF infects over 10,000 in U.S. >= and infects over 10,000 in U.S. <= 1 THEN

|  
 | **O2\_extra** infects over 10,000 in U.S. extra  
 | We would like to get extra information about the last question. What are the chances that  
 | there will be an outbreak of H1N1 (swine) flu this fall that infects over 10,000 people in  
 | the U.S.?  
 | 1 0%  
 | 2 More than 0% and less than or equal to .001% (1/100,000)  
 | 3 More than .001% (1/100,000) and less than or equal to .01% (1/10,000)  
 | 4 More than .01% (1/10,000) and less than or equal to .1% (1/1,000)  
 | 5 More than .1% (1/1,000) and less than or equal to 1% (1/100)  
 | 6 1%  
 |  
 ENDIF

#### **CS\_001** HOW PLEASANT INTERVIEW

Could you tell us how interesting or uninteresting you found the questions in this interview?

- 1 Very interesting
- 2 Interesting
- 3 Neither interesting nor uninteresting
- 4 Uninteresting
- 5 Very uninteresting

**CS\_003** comments

Do you have any other comments on the interview? Please type these in the box below.
