

## Household information (MS 90001)

### IN001 INTRODUCTION

Our goal is to improve policymaking by informing decision makers about how the public is responding to policy changes and life changes. You are part of a randomly selected sample, especially chosen to represent the U.S. both geographically and demographically. To make sure that this selection process is working properly, we would like you to complete this short questionnaire about your household, your background, and your work. By keeping this information current, we will be able to compare our panel to U.S. Census data. This will ensure that our results accurately reflect what is happening across the nation. We will also be able to assess how different types of households are affected by policy changes and life changes. In the future when you login, we will ask you to update us about any important changes to your household or your work as described in this questionnaire.
